

Dual-6 Drip Stake & Bug Cap

Landscape Products Dual Drip Stake is 6 inches long adding better stability with strong, durable construction. There are two ports sizes on the stake fitting both 0.220" and 0.250" distribution tubing. The tapered ports provide a better grip keeping the tubing where it is supposed to be. The flat top facilitates pushing into the ground comfortably by hand or can be hammered in.

Dual-6 Drip Stake (12001602)

- Two port sizes on one stake, use either 0.220" or 0.250" tubing.
- 6-inch length for greater stability.
